

# Fleeing the war across oceans

Photovoice project

Curtin University

This project is funded by Healthway and Lotterywest and is conducted by Professor Jaya Dantas and Dr Tetiana Bogachenko, with assistance from Larysa Chybis and Yuan Lim from Curtin University.

The project aims to develop a better understanding of how displaced persons (DPs) from Ukraine are experiencing their long-distance transition to and life in Western Australia (WA), focusing on the impact of displacement on their wellbeing.

The Ukrainian DPs were invited to reflect on and share their experiences in a creative and meaningful way through interviews and photography. The service providers, employers, and community/non-for-profit/charitable organisations in WA were also invited to share their experiences of assisting these DPs.

The project produced a traveling photo exhibition and a dynamic online exhibition space where all visitors can also submit their feedback and comments (please scan the QR code to visit the project website and find the feedback form).
